

Durable, low maintenance, hardwearing, hygienic, easy to clean, with a thirty-year warranty.

Stunning Heartride windspray smoked oak vinyl in 1220mm x 230mm lengths.

NEW TREND VINYL MAGIC

Northern Tile Gallery's new sophisticated vinyl flooring is setting the record when it comes to design choices and durability.

With the ability to replicate timber, stone or marble by using advanced photographic technologies, luxury vinyl flooring not only looks great, it also provides comfort and quiet. The soft, absorbent backing reduces noise and provides insulation. Durable, low maintenance, hardwearing, hygienic, easy to clean, with a thirty-year warranty, it's perfect for nearly every room. If your home has real wood floors and you wish to continue the theme, then wood vinyl is the perfect value option. The sansol backing membrane is mould, bacteria, mildew and rising moisture resistant. The Australian natural wood range is readily available and is ideal for healthcare facilities, fitness premises, commercial kitchens, high-traffic areas as well as in residential homes. 'I've used the new vinyl planks in a couple of homes now. It's easy to lay, and the finish is outstanding,' said Richard from Beare Homes. 'Catherine and the team at Northern Tile Gallery have an outstanding range and are so professional and fabulous to work with.'
